

When You Need More

Providing Virtual Trauma Recovery Intensive Support Program for Adult Survivors of Abuse & Sexual Trauma

Hope Recovery's virtual Trauma Recovery Intensive Support Program (TRISP) is designed for survivors of abuse and sexual trauma who are needing extra structured support. TRISP can be supplemental to your therapy if you are needing intensive treatment but are unable to find an Intensive Outpatient Treatment program or your therapist is unable to provide multiple sessions a week during a difficult time.

Hope Recovery Offers Intensive Support for:

Psychological & Interpersonal Trauma due to abuse and sexual trauma.

Special focus on posttraumatic stress disorder, dissociative disorders and eating disorders.

Admission Criteria:

Must be a survivor of abuse and/or sexual trauma at least 18 years of age

Is medically stable

Is not at risk of harming self or others

Demonstrates fair motivation

Is willing to be active in the groups

Willing to have camera on

TRISP Goals:

Provide additional structure

Offer intensive support during a difficult time

Extend peer support and connections

Increase coping skills

When to Seek Services:

Needing additional structure

Struggling and needing additional support
